### **Coping With Psychiatric And Psychological Testimony**

Coping skills are strategies that help people deal with mental health challenges in order to achieve positive mental health and wellbeing. Coping skills take many forms. People can use their own personal coping skills to take charge of their thoughts, feelings, and actions, and when they do, they find that they experience mental health and even begin to thrive. Coping skills don't necessarily remove stress or eradicate challenges like mental illness, but they go a long way toward helping ...
