Qingdao ([tɕʰiŋtɕɑ̀u]; also spelled Tsingtao; Chinese: 青岛) is a major sub-provincial city in eastern Shandong province, China.Located on the western shore of Yellow Sea coast, Qingdao is a major nodal city on the 21st Century Maritime Silk Road arm of the Belt and Road Initiative that connects East Asia with Europe, and has the highest GDP of any city in the province.

Qingdao - Wikipedia

FRESHWATER FISH OF NEW RIVER, BELIZE The Bay Snook is a popular fishing species. It is a brilliant green-gold with black spots and large, rounded fins. A red color morph also exists. It has a highly protrusible jaw that extends to more than a quarter of its entire body. It is often mistaken for

FRESHWATER FISH OF NEW RIVER, BELIZE

A routine survey of the fish landed in Belize makes it quite apparent that during most o of the year very little fishing is being done outside the barrier reef. Larger plagic species, such as the dolphin (Cory phaena hippurus) , "queenfish" (Acanthocybium solandri) , and cobia (Rachycentron canadus), are reasonably plentiful but seldom caught.
