Amazon.com: Customer reviews: Racing Car Design and ...

car design is aerodynamics. Creating down force, to hold the car to the ground to improve cornering; and minimizing drag, which slows the car down are two primary concerns when designing the car. Modern F1 teams use expensive wind tunnels and computational fluid dynamics systems to analyze the effectiveness of an aerodynamic design for a car.

Design of Formula One Racing Car - IJERT Journal

With concept car design from the world's leading automakers looking sleeker with each passing year, it's easy to get caught up in all the excitement. But to fully appreciate the elegant lines and trim chassis that populate 21st century roadways, it's important to realize just how far we've come since the first Model T's rolled off the ...
